Rules for Ordering Brace Hangers.—State width, height and thickness of doors, and whether hard wood or pine.

Brace Hangers can be used on either side of a partition, or in pockets, especially when there is not space enough for Balance Hanger Weights.

Brace Hangers are made right and left hand. For opening doors, right hand made to the right, and left hand to the left when facing that side of door on which Hanger moves.

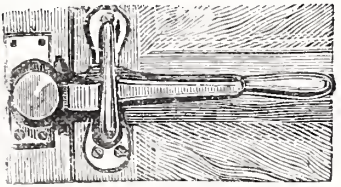

The Hangers must always be at least four inches less in length than the height of door.

If doors are very heavy, it is best to use hangers one size larger than given in the table.
